

## 1. WHAT IS INDUSTRA BANK MOBILE APP

With the Industra Bank mobile app, you can easily manage your personal or business finances wherever you are. The Industra Bank mobile app includes both mobile bank for convenient transactions in the fast pace of everyday life and the Industra Code authentication tool, which allows you to log in to internet bank and approve transactions.

## 2. HOW TO CONNECT THE APPLICATION

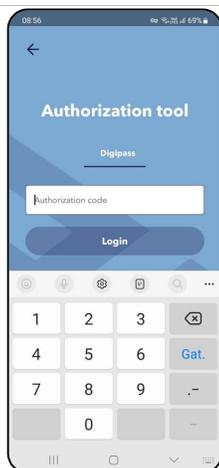

Industra Bank  
Industra Bank • Finances

1. In Google Play or AppStore download the Industra Bank mobile app.
2. To protect your data, your phone device should have screen locking enabled.

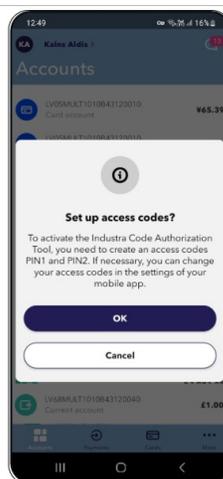

1. For your first login, enter your internet banking user ID and password

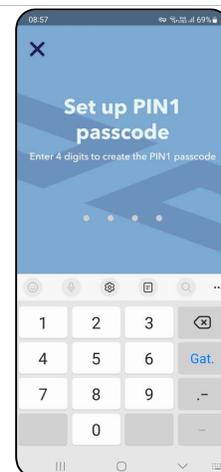

2. Select the authentication tool and enter the code in the "Authorization code" field

3. You will be prompted to create access codes to use the app as the Industra Code authorization tool

4. Create a PIN1 passcode consisting of four digits.

5. Enter it repeatedly to confirm.

6. Create a PIN2 passcode consisting of five digits

7. Enter it repeatedly to confirm.

8. The app will then offer the option to set up biometric data, if supported by your mobile device

**The mobile app is installed and ready for use!**

### CHANGE OF THE LANGUAGE OF THE APPLICATION

Change the app language.

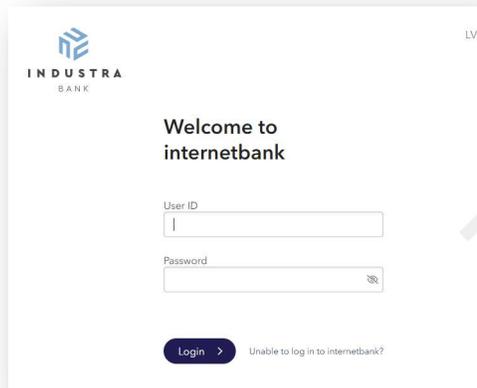

<p>1. In the app, open the Language section.</p>	<p>2. Select the app language.</p>
	

## 5. MORE FEATURES

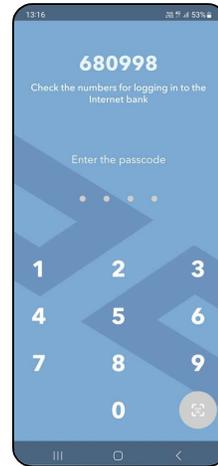

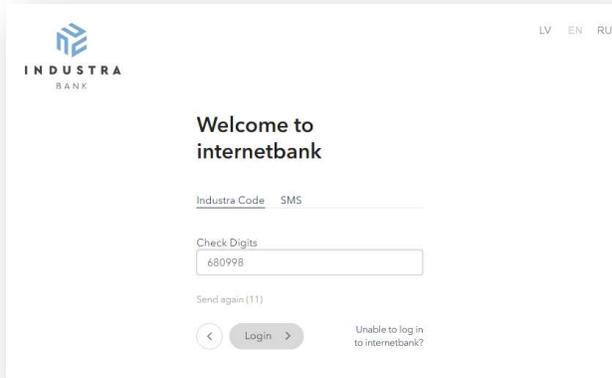

## 6. HOW TO CONNECT TO INTERNET BANK BY USING INDUSTRI CODE

Open the bank's website at <https://industria.finance/> and click the [INTERNET BANK] button, or open your web browser and enter the internet banking address <https://ib.industra.finance/>. In the internet bank login window, enter your user ID and password. Click [Login].

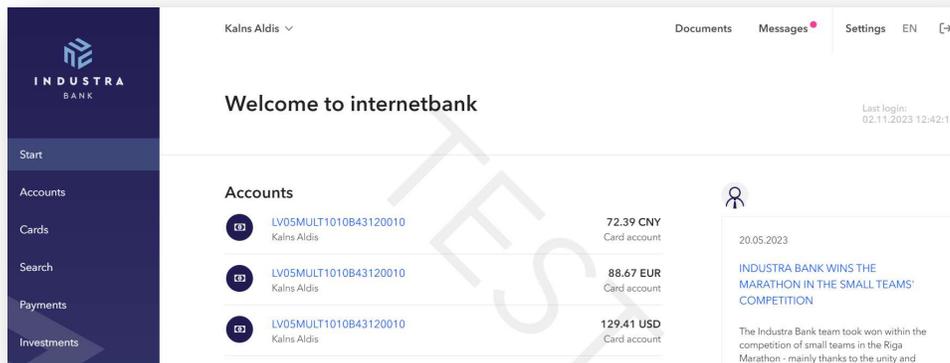

The screenshot shows the login page for Industra Bank's internet banking. It features the bank's logo and the text 'Welcome to internetbank'. There are two input fields: 'User ID' and 'Password'. Below the fields is a 'Login' button and a link that says 'Unable to log in to internetbank?'.

A pop-up notification will appear on your mobile device. Make sure that the same six-digit code is displayed in Industra Code as in the internet bank login window.

If the number combination matches, confirm your login to internet banking by tapping the biometric icon  or entering your PIN1 passcode.

**You have successfully logged in to internet bank!**

## 7. HOW TO APPROVE AN ORDER PREPARED IN INTERNET BANK WITH INDUSTRA CODE

To send an order (document, message, payment order, or other instruction) for execution, sign it. A pop-up notification from the Industra Bank app will appear on your mobile device. Make sure that the same six-digit code is displayed there as in the internet banking window.

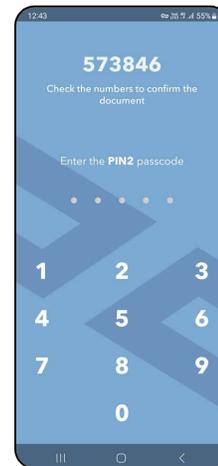

Check Digits: 573846

Authorization tool No.: CMA5720

Request new verification code (10)

I have read the bank's General Business Terms and Conditions and consent thereto.

Send

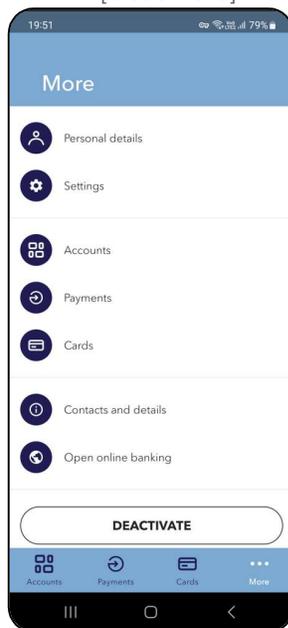

If the number combination matches, confirm the execution of the order by tapping the biometric icon or entering the requested passcode.

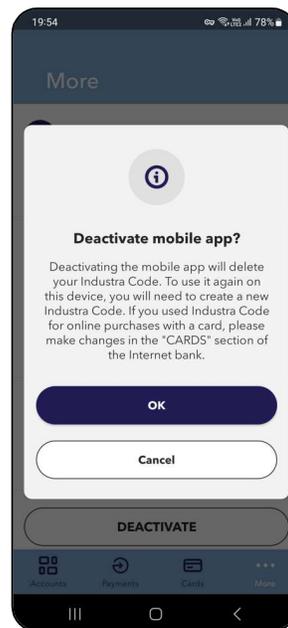

**You have submitted the order to the bank for execution.**

## 8. DEACTIVATE AN INDUSTRA CODE

1. If you wish to deactivate the app, tap [Deactivate].

2. Press the button <OK>.

By deactivating the app, you will no longer be able to log in to internet bank or approve orders using Industra Code. The app will not be deleted from your mobile device; however, to use mobile bank and Industra Code again, you will need to authenticate and create new passcodes.

You will be able to log in to and use internet banking with other authentication tools for transaction approval; however, the Industra Code authentication tool will not be available in the full version of internet banking.

**Remember!** If you used Industra Code as the authentication tool for online card purchases and deactivate the app, make sure to update the authentication method in the "CARDS" section of internet banking.
